SUBSTANCE OF INTERVIEW

On October 24, 2007, Ronald Schoenbaum conducted a telephone interview with Examiner Laneau to discuss the outstanding Office Action in the present application. During the interview, Mr. Schoenbaum explained that the Bezos patent (6,917,922) is owned by the assignee of the present application, and is therefore not available as prior art for obviousness purposes. Mr. Schoenbaum also explained that Bezos does not disclose all of the limitations of independent Claim 33. Finally, Mr. Schoenbaum proposed amendments to some of the other claims, including independent Claims 1, 12 and 24. The claim amendments made herein are identical to those proposed during the telephone interview. Mr. Laneau indicated that the amendments appear to render the application allowable, and requested that Applicants file a formal amendment/response. No other issues were discussed.
